Life at LIFE

Open house at LIFE

Last Friday 12 March, LIFE hosted an open house for its BSc study programmes. A total of 319 visitors dropped by to hear the students' presentation of the programmes, attend trial lectures and explore what was on offer at the study programme stands in the Marble Hall. The number of guests has remained constant at around 320 for the past five years, and this year was no different.

The atmosphere was positive and the guests were very inquisitive at the stalls, in the auditoriums and at Student Services.

Open house in the greenhouses on Rolighedsvej

On the last weekend in March, the LIFE greenhouses will once again be open to the public.

Last year – in 2009 – the event was cancelled because of a serious fire that caused significant damage to the entire greenhouse complex. Now the greenhouses have been renovated and rebuilt, and the staff is pleased to be able to open the doors to the complex on Saturday and Sunday 27-28 March, from 12 noon to 4 pm on both days.

There will be presentations on new plant research findings and experts will be available to give advice on the care of indoor and garden plants. There will also be plants for sale.
